**Andrew Skeoch** is a naturalist and one of Australia's best-known nature sound recordists. Over the last twenty years, he has journeyed to remote locations in Asia, India, America, Europe, Africa and the Pacific in search of some of our planet's most beautiful and fascinating sounds.

Combining his areas of expertise with a deep curiosity, Andrew explores the crucial role of sound and communication in nature and evolution. He weaves the latest scientific understandings into a fascinating celebration of the natural soundscape around us.

His intriguing presentations are supported by audio recordings and will have you appreciating nature from an entirely fresh perspective.
