

HANGING ROCK RESERVE

Understand the new Environmental Management Plan ... and learn how to make your place more wildlife friendly

Newham &
District
Landcare
Group

NDLG invites you to a presentation and discussion with Katherine Smedley, senior consultant (Botanist) with Practical Ecology.

Author of the Hanging Rock Reserve Environmental Management Plan, prior to joining Practical Ecology in 2000 Katherine had extensive experience in on-ground bushland regeneration and management works as a Green Corps supervisor and in ecological restoration working for the National Trust of Australia. She has managed numerous projects, ranging from management plans, flora surveys, vegetation risk

assessments, fauna habitat assessments, ecological monitoring and bushfire analysis.

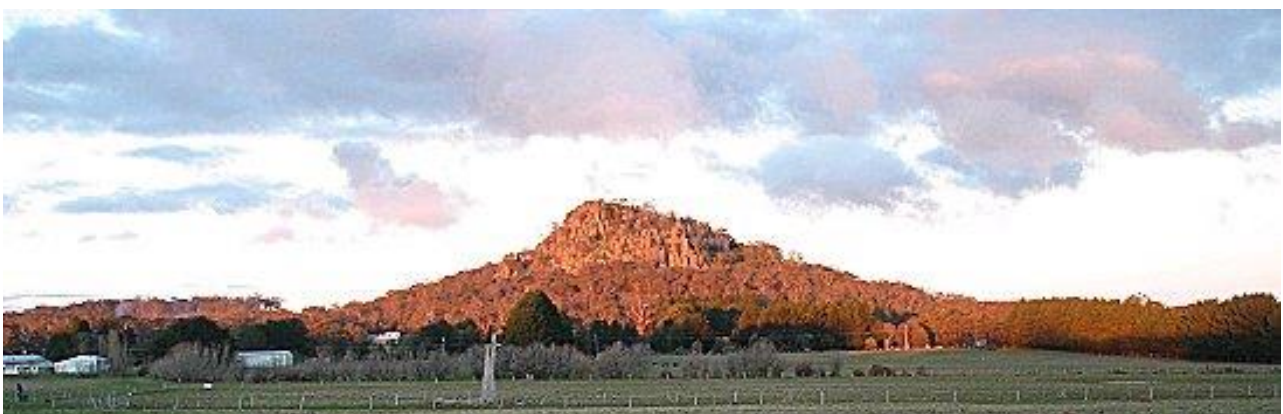

Date: Friday Friday October 14th

Time: 7 pm drinks and nibblies before 7.30pm

presentation and discussion

Newham Mechanics Hall

Free. Supper to follow
