# Gliders:

Glider ecology, animal road crossing structures

.....and more

**Presented by Kylie Soanes**

Kylie is a wildlife ecologist/conservation biologist. Her work to date has focused on the conservation of threatened mammals within the human-dominated landscapes of south-east Australia. She particularly likes finding ways to strike a balance between agricultural/urban developments and nature conservation.

**Friday May 20th**

**Newham Hall**

**7pm**

**For 7.30 start**

**Supper to follow**

**RSVP: [penroberts@bigpond.com](mailto:penroberts@bigpond.com) or
