

EXPLORE, WEED AND IDENTIFY WILDFLOWER WORKSHOP

The Roadside Management Group has identified that Shelton's Road and Henneberg's Lane have an abundance of native wildflowers that are being crowded out by weeds.

We invite ALL Newham and District Landcare members who can possibly attend to weed these roadsides. Removing weeds will help maintain the native wildflower diversity.

Don't miss this opportunity to see the wildflowers.

BRING YOUR OWN GLOVES

MORNING TEA PROVIDED
