

Newham & District Landcare Group

Regenerative Grazing Workshop & information session

Can you be a productive farmer and 'greenie'? Absolutely!

Come along to learn how conservation practices can increase farm productivity and improve its resilience in these unpredictable times.

We have an experienced and engaging speaker presenting on a local property.

Jason McAinch, Regenerative Agriculture adviser to MRSC, will talk about healthy landscapes and how to make them happen.

Date: Sunday October 16th

Time: 1.30 - 3 pm

Where: a small farm in Newham, *address details will be sent on registration*

Free – this event is supported by MRSC and a Landcare grant
